- Students can be registered in one of four sectors - Agriculture, Health, STEM or Trades
- They will meet hosts working in that specific industry during the morning - students can start their own network of contacts.
- They will participate in interactive displays - rather than just talking to hosts, students will get to experience a small part of the job and gain a greater insight into what the occupation involves.
- They will learn what it takes to work in that specific industry, including the highlights/lowlights of the job.
- After lunch, students will have an opportunity to explore the other three sectors, or return to hosts they might have missed in their sector earlier in the day. **Please see Mamta in Room 209 to sign up.**

Berridge Programs started in 2007 under the name Acting Abroad. For eight wonderful summers we have brought young artists from around the world together with professional actors, directors, producers, choreographers, writers and filmmakers to study the craft of acting and filmmaking in the extraordinary setting of Chateau le Mont Epinguet in Normandy, France. We are dedicated to delivering the highest quality programs that offer young artists the unique opportunity to combine a performing arts camp, college residential program and study abroad experience.

Many of our students have gained admission to the college of their choice by writing and talking about their unique experience with us. Our alumni attend some of the most prestigious colleges in the world including Yale, Brown, Dartmouth, Vanderbilt and Vassar as well as many reputable theatre programs including NYU Tisch, Carnegie Mellon, AMDA, Webster Conservatory and USC and also programs abroad at RADA, LAMDA and Drama Studio London.
